

Sustainable Futures for Europe's Heritage in Cultural Landscapes:

Tools for understanding, managing, and protecting landscape functions and values

The Landscape Approach

Paul Tabbush and Sarah McCarthy

This project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreement no 603447

FP7, Collaborative Project
1 December 2013 – 30 November 2016

Landscape approach to what?

- Impact Assessment and Analysis – Avoid single-sector or single disciplinary views
 - EIA Directive
 - EC Impact Assessment Guidelines (2009)
 - Economic analysis
- Policy-making -consider cultural and multisector implications

Integrated Land Management – multiple economic sectors. Technical, expert driven

ELC – Participative. Landscapes “perceived” – in hearts and heads – they are all cultural.

Sustainable solutions

Modbury example

- Climate change
- Agricultural intensification
- Urban development
- Peak run-off
- Catchment management plans
- Integrate economics, culture, tourism
- Resilience
